Download Part Status Report in DCF

WHI has released an enhancement to your DCF in Nexpart Administration. To simplify the maintenance of managing the DCF, we have added a new Download Part Status report to the Catalog Display Control Admin screen.

This allows the DCF administrator to get a report of the current part number status for a single brand in a given DCF catalog. Easily navigate and understand which parts are active under each part type in the DCF with a simple downloadable report.

Follow the instructions below to utilize this feature:

1. Login to administration
2. Select Catalog Display Control

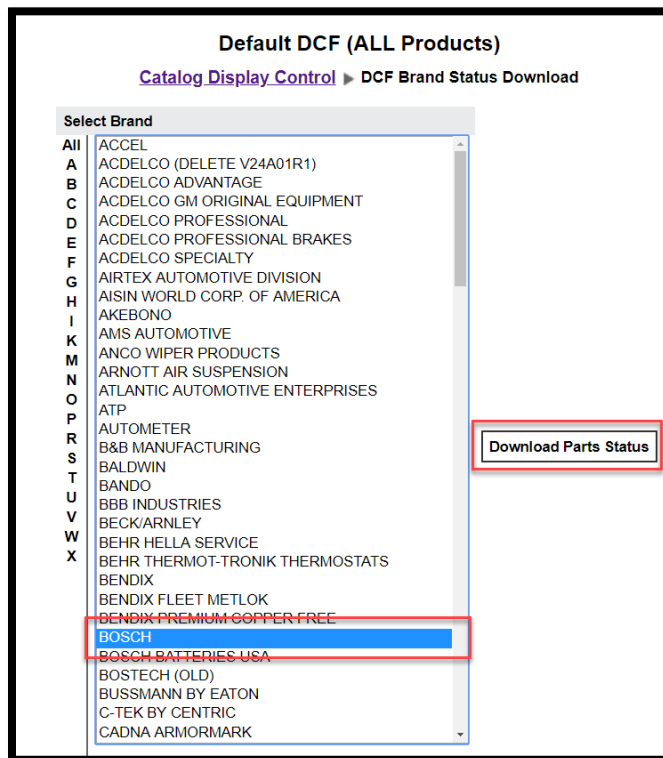

3. Select the AM/OE Application Parts Catalog

4. Click "Select" under Download Part Status on the line of the DCF you wish to get a report on.

5. Select Brand and click "Download Parts Status" to generate a report of the part status in selected brand

Generated Report (See example below) can be saved to local device and used for analysis or repurposed to be uploaded in the new DCF Part Uploader tool.

DCF ID(s) - comma separated or 0 for all	YOUR LINE CODE	PART NUMBER	ACTIVE (Y or N - default is Y)	GROUP ID	GROUP	SUBGROUP ID	SUBGROUP	PART TYPE ID	PART TYPE	PART TYPE LABEL
1111		00325	Y	1	Ignition/Filters	17	Tune-Up and Ignition	7060	Ignition Coil	New Ignition Coil
1111		0204022294	Y	4	Brake/Wheel Bearing	70	Master Cyl, Booster, Switch	1884	Power Brake Booster	Brake Booster
1111		0204022300	Y	4	Brake/Wheel Bearing	70	Master Cyl, Booster, Switch	1884	Power Brake Booster	Brake Booster
1111		0204022380	Y	4	Brake/Wheel Bearing	70	Master Cyl, Booster, Switch	1884	Power Brake Booster	Brake Booster
1111		0204022592	Y	4	Brake/Wheel Bearing	70	Master Cyl, Booster, Switch	1884	Power Brake Booster	Brake Booster
1111		0204022598	Y	4	Brake/Wheel Bearing	70	Master Cyl, Booster, Switch	1884	Power Brake Booster	Brake Booster
